## Public School Report

The lists below indicate the pupils who have gained honor positions in their classes for the period from January to April.

Junior Grade II, 1, Nick Bizouk; 2, Wilda Caswell; 3, Bernard McDonald; 4, Harold Austin.

Senior Grade II, 1, Helen Love; 2, Lorna Corcoran; 3, Evelyn White; 4, Christine Kerr.

Junior Grade III, (not yet promoted from Primary Room) 1, Violet Love; 2, Phyllis Lowe; 3, Elsie Gilbertson.

Grade III, 1, Paul Kornichenko; 2, Marjorie Holloway; 3, George Whitlock; 4, Orton Caswell.

Grade IV, 1, Thomas Lowe; 2, Hannah Erskine; 3, Victor Thygeson; Lucille Charbonneau equal; 4, Fred Hatch, Isabel Lannon, equal.

Grade V, 1, Laella Gilbertson; 2, Neutle Kornichenko; 3, Andrew Lee; 4, Eugene Wilken, Robert Erskine, equal.

Grade VI, 1, George England; 2, Margaret England; 3, (Equal) Helen Corcoran, Minetta Charbonneau, Beckett Lowe, Francis Wille, Vera Kornichenko.

Grade VII, 1, Beatrice Barbour; 2, Jesse Erskine.

Grade VIII, 1, Marjorie May; 2, Edmund Todd; 3, Edna Johnston.

W. L. Irvine, Principal.

## Extra Fire Protection

The village council has recently purchased two hand fire extinguishers, which have been placed on Main Street, one being attached to People's Meat Market and one on the south exposure of the J. L. Acheson Hardware, at the corner of Main Street and First Avenue East. These are for immediate use by any person in case of fire, access to the extinguisher being gained by breaking the glass of the fire box. Refill material may be obtained at the Fire Hall (opposite theatre) and will be carried on the tank, when same is away, in case of fire.

A larger size extinguisher has been placed at the fire hall for the use of the fire department, which when possible, should be rushed to fires ahead of the apparatus.

Tenders for the work of repairing board and cinder walks have been let, and this work is now being carried out.

The council has decided to have some street grading done and this work will be proceeded with at an early date.

## Mr. and Mrs. Hunt Leaving for East

John D. Hunt, who recently sold his dray business in Oyen to W. D. Morrell, is leaving with his wife and family for Perth, Ont., where they will make their home. Mr. Hunt was among the pioneer homesteaders of this district, subsequently engaging in the dray business in Oyen since 1918. Mrs. Hunt was an active worker for the Women's Institute and the Women's Guild of All Saint's Church, and will be much missed by these organizations. Mr. and Mrs. Hunt and family expect to leave to-day and will travel by motor to Ontario. A farewell social was held in their honor last week at the United Church.

## M. D. of Bertawan

Minutes of Council Meeting held at Sibbald on Saturday April 3rd at 2 p.m.

Present: Reeve Wilson, Councillors Allwood, Daibel, Jones, McEwen and Norris.

Minutes of previous meeting approved on motion of Councillor Daibel.

Moved Daibel, that Councillor Norris be authorized to rent the North East of 13 29 3 to the best advantage of the Elliott estate. Carried.

Moved Allwood, that the bill due to Dr. Swartzlander and to the Oyen Hospital for treatment of Mrs. MacDonald be paid. Carried.

Moved Allwood, that Mr. Daibel be authorized to sell the buildings on the David W. Saunders' land. Carried.

Moved Jones, that we remit the sum of \$4000.00 to the Hail Board, this amount to be paid out of the surplus at present in Savings account. Amendment Allwood, that we delay making a payment to the Hail Board from the general funds until this fall when a special effort will be made to collect all outstanding Hail taxes, and that the payment be made then. The voting resulted in a deadlock, and it was eventually decided to let the matter drop for the meantime.

Moved that we loan \$3500.00 to the Schools at 8 per cent. interest to be charged when cheque issued, and that first quarterly payment due to Schools be now paid. Carried.

Moved Norris, that the Reeve and Secretary be authorized to transfer \$3500.00 from Savings account to School account for the purpose of making the payment authorized. Carried.

Moved Norris, that the N.E. quarter of 21 28 2 West of 4th be transferred to Frank Noe. Carried.

Moved Allwood, that Mr. Francis J. Harrison be engaged as Secretary at \$4.00 per day, while the present Secretary is on his vacation. Carried.

The following accounts were passed on motion of Councillor Allwood: Dr. Swartzlander, 10.00; Oyen Hospital, 215.50; Aleask News, 22.45; James Lees 11.20; Richardson MacCo, 68.05; Alberta Pacific Co, 7.30; Gibb Crisford, 20.00.

Moved Daibel, that meeting adjourn.

W. Linklater, Sec. Treas.

## Golf Course is in Fine Shape

The spring work has been practically completed on the golf course, which now is in good shape for play. Many of our local enthusiasts have taken advantage of the fine weather of the last few days and are very pleased at the condition of the course, which was burned off last Wednesday.

A large number of cattle have been poisoned in this province through grass-hopper poison being carelessly left where stock can get at it. Farmers are warned of this danger. Sacks in which the poison was received should be burned. The older the bait is the stronger it becomes, and if an attempt is made to destroy it by burning, stock are liable to lick the cakes if same are left on the ground and still get sufficient poison to destroy them. If it is buried, but not deep enough, gophers may bring same up when making their burrows.

## HOUSE CLEANING SPECIALS

14 bars Classic White laundry soap for	\$1.00
100 packets Beate-all for	.65
50c bottle Clean All for	.25
3 cans Classic Cleaner for	.25
8 Star Broom	.90

General Merchant

## Carrying Out Destruction Tests

Pottery Firms of Britain Searching for Antiquities, China

In the research laboratories of the pottery firms of Britain, destruction tests with china are now being carried out systematically.

The domed plate, or tispot, is fired in a furnace in position, and a ball at the end of a steel pinning swings down and hits the target. By lengthening the pendulum, harder blows are struck until the end crumbles. Then the resistance is mathematically computed.

Each experiment brings us nearer to the day when a dish, or plate, will rebound unharmed from the tiled century floor.

Scientists have improved materials until British chinaware now outlasts that of all other countries, so far as can be proved in the laboratory. When the crucible has been tested at the factory by the machine, piled weights, hot water, intense heat, the mangle, even death, death results only from unskillful handling.

A week ago, which recently has been greatly improved, lies in the fact. When this was scratched, but water could not further surface, the testing—the culchery marks which we all know—and the life of the article was shortened.

The need for unbreakable china is emphasized by the experience of Messrs. J. Lyons and Co. during the first year of the Venetian exhibition.

The death roll was as follows:

Sauvages ..... 410,000  
Cups ..... 1,378,000  
Troughs ..... 1,480,000  
Glasses ..... 1,480,000

Grand total ..... 3,748,000

In one day they were broken from three weeks of six working days each. More than half the machines—54 per cent.—had broken during the washing, and another 25 per cent. of casualties took place behind the counter. Customers and waitresses washed only 72 dishes between them.

The pottery experts are facing a version of the old battle between the fireproof safe and the unpiercable armor plate.

At the moment the initiative is with the enemy.

## Scorn Oriental Method

Young Turkish Women Do Not Favor Slow Walk

Turkish women are exhorted by the Constantinople daily, *the Republic*, not to adopt similar to the new western practices the Anglo-Saxon woman's "soldierly stride." The sheet devoted to women, a recent innovation of this newspaper, lays down the following rules as to the proper method of walking for the ladylike:

"Do not drag your feet, but slide them gently along the pavement. Do not waddle from side to side or move your shoulders or swing your hips. Take short, dainty steps—a long stride is unseemly in woman—and above all, don't rush. Keep your eyes on a high point directly ahead of you and appear to see nothing."

Although the older generation of Turkish women is not likely to infringe upon any of these precepts, the majority of younger women have declared open war on the traditional Oriental method of strolling languorously through life. One of the most startling manifestations is the cross country race now being organized by the girls' section of the Galata Sera Sports' Club of Constantinople. It will be the first event of the kind for Moslem girls in the history of Turkey.

## Average Age Ninety-three

Under the name *roof* in the village of Hittingborough, Eng. are five women, all related, whose combined ages total 465—an average of 93. They are all active. Two of them earn a living by knitting and dressmaking, while the other three do housework. The patriarch of the household is 97, but still gets out to do the shopping, while the happen of the youngest, her time doing the kitchen work and chores. The others are aged 85, 91 and 92.

Cholera: Surely, More, you don't expect to catch fish in that stream?—More: No, why I don't expect to. For just showing my old woman I has no time to turn to wringer.

Head of the House (in angry tones): Who told you to put that paper on the wall?—Dorcas: Your wife, sir. Head of the House: Pretty, isn't it?

"Oh you got a good nurse now?"—"I say you got just as much interest in the children as the lady next door."

W. N. E. 1625

## Origin Of Well Known Song

"For He's A Jolly Good Fellow" Was Old French Marching Song

Next to the national anthem, and "Auld Lang Syne," there is no song in the English language so universally sung as "For He's A Jolly Good Fellow." Every night somewhere in the corners of the world it is sung in honor of somebody. The words are few and the tune the most commonplace, but no other air in the whole library of song is so appropriate. With one accord an entire gathering breaks forth spontaneously. Everybody seems to know the song from the days of infancy, although it is doubtful if it was ever published at any music store in existence.

About the origin of old songs there is often a great deal of doubt. The notes of antiquity have obscured the authors and composers of some of the best known airs that had fallen to the lot for all time. Some time recently an English newspaper published the source of "For He's A Jolly Good Fellow," which was traced to a correspondent that the tune came from a French marching song, the words having been adapted to it by the Irish "Rangers" of the day in honor of the Duke of Marlborough, who led them against the French over two hundred years ago. Made Atlantic, the song was said to have taken a fancy to it and to have sung it to himself during his last days. Thus a song, born in war and associated with bloodshed and tragedy, is today the song of songs for convivial occasions.

## England Builds Iron Houses

Lined With Asbestos Sheeting and Are Cheaper Than Brick

The first iron houses to be built for habitation in England have been completed at Dudley in Worcestershire.

They are semi-detached villas constructed by a local firm, and while cheaper than brick are claimed to have four times the strength of the latter. Only 16 days was occupied in building. The plates are bolted down to give waterproof joints, and the inside walls are of asbestos sheeting.

Cavities between the outer plates and the interior sheathing are packed for warmth with wood shavings by the military.

Only one erector and two laborers are required for each house, the weight of which is light enough to build, exclusive of the price of the land.

The houses cost about \$2,000 to build, exclusive of the price of the land.

Expected To Survive Term

The prison at Dartmoor contains a man who is probably the world's oldest convict.

The Supreme Court has just confirmed a ten-year sentence on an Ark aged 166, who was found guilty of murdering his daughter.

The prisoner, confident of surviving the sentence, has ordered a new set of false teeth.

## Canada Can Feed Them

Will Be Able To Solve Problem U. S. Is Facing

It is said that population in the United States is increasing at the rate of a million a year, and that the current census shows a population of almost one hundred and seventy millions. It is not to be wondered at that Washington should desire to exclude all those not entitled to enter the country. It is difficult to say just when the United States will stop caring for its aliens. The day for that does not seem to be far distant, however. Most of the productive areas of the United States are already taken up. It is becoming a question of being able to provide food for the population. This circumstance should not cause doubt in the minds of Canadians. After the United States, this country is the next on this side of the Atlantic for the world, who wants to establish a home and is not afraid to work for it. Supplying food products for the people of the United States is the business of a great industry in Canada, it is not far distant date—Sarnia Canadian Observer.

## Not Official Date

Declaration of Independence Signed July 2 Not July 4

American Independence was not born on July 4, 1776, nor was the Declaration of Independence actually signed on that date. It was actually signed on the first of September, 1776, at Lancaster, Pa., by the Continental Congress. The date of July 4, 1776, for public distribution, said Professor Widdows. "By that date our thirteen original states had been solemnly and officially independent for two days. The date of great Britain was cut by resolution of Congress on July 2."

A rather poor family unexpectedly came into possession of a fortune. They purchased a large farm, with house and place. One day the little daughter was showing a visitor about the place.

"Do you have any money?" he inquired interestingly. "Oh, they can," was the haughty reply, "but in our new position they don't need it."

Woman Boasts Street-Cleaners

Society matrons at Pulla, Florida, play golf and tennis for exercise, but Mrs. Arthur B. Clark, president of the Women's Club, gets her daily exercise by acting as foreman for a squad of street cleaners. Her club has been agitating for cleaner streets.

The marsh war builds several nests beside the one used as a home, the empty nests being dumplings to deceive marauders.

## Tells Time By Centuries

Swedish Water Clock Has Been Going Over 800 Years Old

There is a clock in Sweden, not made by human hands, which tells the time by centuries, and has been going for eight thousand years and more. It is a great expanse of water, Lake Lagunda, into whose still depths now the ice trickles from a glacier nearby. As the ice-water drains it raises the level of the lake and deepens a fish layer of mud. But because the melting of the snow raises the level of mud is divided into a light and a dark band.

All round the shores of the lake is a hand of ice. The lake was established 1300 years ago and it has been possible to count the whole number of layers which have been deposited since the lake was formed. Some of the topmost ones have been trampled down or destroyed, but these missing years have been computed from other sources, and the sum of the whole inquiry is that the water clock of Lake Lagunda has been going for 8,000 years. The question then arises how or by what it is started?

When the great sheet of ice which once covered half Europe and topped icebergs from its glaciers into the sea of Brighton finally beat a retreat, splitting into two portions, one of which drew back from Scandinavia, it set free the basin called Lake Lagunda, which henceforward was to mark the time by centuries. It there fore marks the end, the very end, of the ice ages. Further south than Lake Lagunda other lakes have also told the time in years, and deposits in Switzerland reveal that the ice ages came and went at least four times. The last of the ice ages, the northward depairing ice about covered 5,000 years. In going back 500 miles, and 1,500 years in passing away from Stockholm to Lake Lagunda.

## Decided Out Of Whiskers

Queen Victoria's letters indicate that in spite of her grief over the death of Prince Albert and her reticence to have anything to do with public ceremonies for many years, she found time to go into official mourning, and even decided how many men should wear their whiskers. In June, 1869, orders were issued that no man should wear whiskers unless they were also beards.

Tragic Film Banned

Impugning the film showing the tragic death of the aviator who recently attempted to fly between the four pillars which constitute the base of the Eiffel Tower, its showing to Great Britain and the United States has been prohibited by the French authorities. The ship containing the film was held up at sea and the film confiscated.

If the love of money is the root of all evil, the want of it must be the evil itself.

## Blind Man Builds Home For Himself

New Jersey Carpenter Is Doing Work All Alone

Sightless eyes cannot overcome the will to do. This blinds man in the case of Francis A. Burdett, blind man, who is building a six-room Dutch colonial house in Wayne, N.J. Last year, Mr. Burdett totally blind for 12 years, completed the raising of a two-story house. Working alone, unaided except for the labor required to dig the cellar and lay the foundation, Mr. Burdett is now ready to put a roof on his house.

Throughout the winter this courageous blind man has worked every day with the exception of the stormy ones. Occupants of the hundreds of automobiles that passed the lot on Pompton Turnpike little realized that the tall, straight old gentleman perched high on the frame stairs was blind. He hammered and sawed with all the precision and vigor of a man who could see.

The house is now completed with round windows and is far from ornate. Mr. Burdett tells daily from early noon to sunset.

It is unusual in which this blind man, sixty-five years of age, climbed ladders, perched on narrow scaffolds, and used all the tools of the carpenter from adze to plane. His knowledge of each tool is to be found. Every piece of material from a ball of twine to the 24-foot timbers to be used in the construction are catalogued in his mind.

## A New Superstition

Scottish Bricklayers Fasten Twig To Chimney of Completed House

A superstition that is somewhat new has shown itself in Scotland. When a house is completed, the Scottish bricklayers fasten a freshly-cut twig to one of the chimney-pipes, to denote that the job is finished, and to give, as they say, life to the new dwelling. This superstition is said to have been imported from Ireland, where, it is probable, it was learned by men serving with the army of occupation. In Germany a bricklayer would as soon think of staining the "Mars-Bild" as of leaving a new house without attaching a twig to the chimney top.

## Killed By Bears

A dispatch from Noyah, in the valley of Lena River in Siberia, says that two hunters in that district have been killed and eaten by bears. A sixth hunter, who was also attacked by the animals, returned so mangled and injured that he could scarcely tell of the fate which had overtaken his companions.

Native women of India are often used to carry heavy burdens, and in the making of roads.

Too many marriages are for publication only and not a guarantee of good faith.

## SETTLERS SUCH AS THESE COMING BY HUNDREDS-- POLISH FLAPPERS AT ONCE ADOPT CANADIAN STYLES

Scandinavians of the best agricultural type, many of them bringing money to buy land, are arriving in Winnipeg these days literally by the hundreds. The above photograph taken a few days ago at the Union Station, is a fair sample of the type of immigrant that Canada is getting from Europe this season, and the picture speaks for itself as to the standard of better. During the past several days many such Norwegians, Swedes and Danes have been included in the large parties transported from the seaboard by special Canadian National trains. They are placed by the C.N.R. colonization department in positions on farms throughout the prairie provinces, with the idea of working for a year or two to learn Canadian farm methods before taking up land of their own.

The last week in March saw the largest movement of immigrants to Canada since the war years and the coming of 57 British families from the St. Antoine reached the west under the Empire Settlement Act to establish 2,000 British families on the land in the Dominion. Large as this party

## "Big Ben" Has Large Audience

Thousands Tune In Daily To Hear Wonderful Bell Chime

"Big Ben" is the regular time for the citizens of London, England, and every day many thousands of people tune in their wireless sets to hear the great chime of the tower.

Twice in the day a mechanical contrivance in the clock works an electric circuit, the effect of which is to deflect the pendulum of the tower. The deflection is caused by a fraction of the weight of the pendulum, and a record is made in the time-book.

If the clock is persistently wrong, by some four or five seconds for several days, the firm of clockmakers that have the Westminster clock in their charge are informed, and it is set right. It is only in consequence of thunderstorms or are accidental disturbance of the pendulum that a large alteration is required.

The first, second and third quarters all begin to strike at those times respectively, but the fourth quarter chime starts about twenty seconds before the hour, so that it may have finished striking before the hour is announced by the first blow of the hammer on "Big Ben."

Getting It At Both Ends

Little John always had an objection ready to hand either about going to bed at night or getting up in the morning. One night, when his mother reminded her that it was her bedtime, she said:

"It isn't fair. At night you tell me 'Go to bed, you little boy, and go to bed at night or getting up in the morning. One night, when his mother reminded her that it was her bedtime, she said:

"It isn't fair. At night you tell me 'Go to bed, you little boy, and go to bed at night or getting up in the morning. One night, when his mother reminded her that it was her bedtime, she said:

"It isn't fair. At night you tell me 'Go to bed, you little boy, and go to bed at night or getting up in the morning. One night, when his mother reminded her that it was her bedtime, she said:

"It isn't fair. At night you tell me 'Go to bed, you little boy, and go to bed at night or getting up in the morning. One night, when his mother reminded her that it was her bedtime, she said:

# Farm Land Values In Western Canada Advancing With Agricultural Prosperity

Increasing prosperity in the agricultural industry, with growing and satisfactory farm revenue all over the Dominion, and a resultant re-awakening of interest in the acquisition of Canadian farm lands on the part of many investors, has commenced another rise in the value of Canadian farm property of which there is every likelihood of a constant continuance. According to the last return of the Dominion bureau of statistics, the average value of occupied farm land for Canada as a whole, including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, was \$23.99 per acre in 1925, as compared with \$17.09 in 1924 and the same figure in 1923. The value of vacant land, including farm land prices in Canada has been as low as they will ever be. There was a steady rise in the average value of Canadian farm land up to 1923, when it reached the peak of \$46.00 per acre. In 1924 and 1925, when the value of the Dominion's farm land was \$23.99 per acre in 1925, a new rise has commenced. While the value of Canadian farm lands is lower than they have been since 1914, Ontario values stand about where they did in 1919, and Quebec's in 1917. Prince Edward Island values are where they were in 1919 and the value of New Brunswick land has risen steadily above 1920 values. On the prairie, values in Manitoba are where they were in 1909 and 1910; in Alberta are the same as in 1917; and in Saskatchewan, the same as 1916 and 1917.

The great Dominion Canada holds out to farmers elsewhere to come to this great land, calling attention to the fact that her new lands may be secured cheaper than farm lands practically anywhere else, and yet by reason of superior fertility outyield higher priced lands.

Thus, there are few sections on the American continent where land is sold at a lower rate than in the Manitoba, Saskatchewan or Alberta, and yet these account for consistently higher yields and consequently greater revenue. Lands in these provinces, recorded as having average prospective values of \$20.00, \$19.00 per acre in 1925, returned in that year from the average acre devoted to wheat, \$20.00 and \$19.00 respectively, each case an acre of land secured to wheat practically returned its value in a single year.

The value quoted throughout are for occupied farms to some extent cultivated and having an increased value because of various improvements upon them. They do not take into account lands in every part of the Dominion as yet unsettled and totally uncultivated, which are naturally of still lower value. These are similarly affected by the circumstances of agricultural prosperity and the value of land. There is every indication that presentation in settlement at the present time will mean that in each farming year had purchasers will have to pay a little more.

## Horse Hiss Its Place Services More Seriously Appreciated Now and Price Has Advanced

A news item published in The Globe a few days ago carried the information that, after ten years of uncertainty, the horse was again coming into his own, but it is hardly probable that the reviv will be sufficient to bring back the villain blacksmith. There is undoubtedly, however, a new alignment which recognizes the horse as a permanent place in the scheme of things; that he is an economic factor as well as an animal of intelligence and beauty whose services are more ardently appreciated today than for a long time. If his reputation for slowness in this speed era has caused his numbers to decline, he can find compensation in the fact that those who want his services must pay for his indifference, for his price has gone up. —Toronto Globe.

**Wool Growers Have Successful Year**  
The annual meeting of the Canadian Cooperative Wool Growers, Limited, it was shown that in the past year the association had sold well over three and a half million pounds of wool for well over a million dollars. This was an increase of 1,250,000 lbs. over the previous year and indicated that 1925 was one of the most successful years in the association's history.

**Prince Names New Horse**  
"Hard to Find" is the name of the Prince of Wales has given one of his new horses. The pedigree of the animal is unknown.

## World's Poultry Congress

To Be Held in Ottawa July 27 to Aug. 1, 1927

The selection of Canada as the country in which the third world's poultry congress will be held is a marked tribute to the prominence which this Dominion is attaining among the nations of the world. Only two previous congresses have been held: one at The Hague, and one at Barcelona, Spain. The showing of Canada was so great that the invitation extended by the Canadian Government to hold the next congress in Canada was accepted, notwithstanding keen competition for the honor by other countries.

The preliminary announcement of the third world's poultry congress has been based from headquarters at Ottawa. It is a very attractively prepared and illustrated booklet which will carry into all civilized countries not only the congress announcement, but a better conception of Canada and things Canadian. The information contained is complete, and the illustrations reflect the crafts and slimples of its industrial and artistic development, have not been overlooked.

The third world's poultry congress will be held at Ottawa, July 27th to August 1st, 1927. Full information may be obtained from the minister of agriculture in each province, who is chairman of the congress provincial committee, or from Ernest Rhoades, National Secretary, Experimental Farm, Ottawa.

## More Homeless

Increase is Shown in Number of Evicted For February  
Homeless entries in the western provinces in the month of February totaled 350, as compared with 297 in February last, a net increase of 53, according to a report issued by the Dominion lands patent branch. The distribution of entries by provinces during the month was as follows: Manitoba, 25; Saskatchewan, 172; Alberta, 132; and British Columbia, 16. For the first two months of the year, there were 629 homeless, as compared with 419 during the corresponding period of 1925.

## House Built Without Nails

Held together entirely by wooden screws instead of nails, a large frame house of elaborate pattern is one of the sights of Atlantic City. It is the Mahalan house, built for the Philadelphia centennial fifty years ago, and was moved to its present location after the fire. Despite its age, it has not been remodelled and it is an excellent type of preservation.

It is said that hasty masons would say you seldom find a hutter in an almshouse.

**Was Real Thing**  
At a certain American factory, honey was being put into jars. On the bench was a heap of dead bees, and the curious visitor wondered what they could be for.

"Wall," said the manager, "I guess we put one bee into each jar."  
"But why?" persisted the visitor.  
"Because," said the reply, "we like our customers to know they're getting genuine honey, and they don't like me using the bug that made it."

**Plenty of Farm Work in Alberta**  
Five hundred farm laborers from Central Europe were placed on farms in the Edmonton district in the latter part of March. In every case the flow of immigration is being well taken care of in Alberta and there is little or no difficulty in finding work for those who are unable to take up arms of their own at the outset, either through lack of money or lack of experience.

The stockholder was very ill, and at times delirious. In one of his lucid moments he asked the nurse what the last reading had shown him. "Superior health," she replied. "Good," he replied. "When it gets to 101½, sell."

## Natural Resources Bulletin

Planting of Wood Lots and Windbreaks Adds Value to Farm

A few acres of sandy soil, a rocky hillside or an isolated area cut off by stream or railway constitute a gold mine in opportunity to plant a wood lot which, in the passing of years, will prove profitable and valuable to the owner. The growing of windbreaks and the increasing value of both hard and soft woods to the land owner is a factor that should not be overlooked, points out the natural resources intelligence service of the department of the interior. Trees will survive on soil that is otherwise unproductive. They provide shelter to stock and to adjoining fields, and at the same time form a picturesque feature to the landscape. They beautify and incidentally increase the intrinsic and saleable value of the land. In the initial stages of growth, they require practically no care.

The federal and most of the provincial governments are prepared to furnish young trees and the advice necessary for their proper planting and care, so that the problem of laying out a wood lot is almost entirely solved. The expense and little worry to the owner or other landowner interested.

The Ontario Government has been particularly energetic in interesting landowners and municipalities in the possibility of tree planting. During the first year, the Ontario forestry department undertook the work (1925) some 18,000 trees were distributed. Last year over seven million were distributed to over 200,000 applicants and results being obtained will, without doubt, multiply the active interest in this work enormously.

The work of the Federal Government has lain in the so-called prairie districts where distinctly pioneer work was necessary. Farm conditions of the former treeless prairies are not rapidly being transformed as the result of the introduction of windbreaks and shelter belts where formerly no shrub obstructed the landscape. Growing outcrops have been used with great success, but to these will be added other varieties. It is not improbable that as a result of the new order, some day, not very distant, will see orchards and hard-wooded trees that are naturally suited to their purpose in Eastern Canada, extending also over the prairie and vast plains between the Great Lakes and the Rocky Mountains.

**Negroes Who Have Won Distinction**  
A negro "Who's Who" is announced for publication soon by an independent board of counsel composed of prominent men of both the white and colored races. The title chosen is "Notable Negroes of America." The book, it is announced, will contain 500 short biographies of negroes who have achieved distinction in any field of endeavor.

**Of Menders**  
All known records for mending material with a power shovel were recently broken when an electric shoveler in a southern mine loaded 3,750 cubic yards of rock on to cars in one eight-hour shift. To accomplish this feat the shoveler used a tool box with eight cable yard dipper had to reach down, fill itself, rise, swing around and empty into a car at the rate of once every minute about a half throughout the period. The rock moved by this single electric shovel would make a blacked pavement on a sixteen-foot road a quarter of a mile long, and to load the same amount of rock by hand in eight hours would require an army of fifteen hundred shovel men. The electric shovel was operated by two men.

## Grain Inspection At Edmonton

**Expected To Exceed Total For Past Two Years Combined**  
Grain inspection at Edmonton will be expected to exceed in volume those of the past two years combined. At it is, at the present time, a considerable number of grain has been inspected locally than was the case for the crop year 1925-26, which stood as a record until this season. Figures from the office of the grain inspector show that between August 3, 1925, and July 31, 1926, a total of 199 cars were inspected in Edmonton while in the present season with five months of the year still to run, the total has reached 15,000 cars.

## Does Not Want Sky-scrapers

The city of Cologne does not want another skyscraper. The city council has decided. One ten-story warehouse, is regarded as enough. The majority of voters influenced the council in its decision. Sky-scrapers, it was said, would obstruct the view of the famous Cologne Cathedral, which towers above every building in the city and can be seen from a distance of several miles.

Bushful flowers and kernels of corn usually turn white when they pop.

Most actors prefer a small role to an entire host.

# Unmistakable Signs Showing The Remarkable Growth Now Being Made By Canada

## California's Potato King Dead

Little Jack Took Up Waste Dots and Made Millions

Death has claimed George Shinn, multi-millionaire potato king of California, most famous Japanese outside the Empire of Nippon, a little man of an alien race who had made his name in California since his arrival as an immigrant boy 26 years ago.

Shinn came to America with his bride of a few weeks and got employment in the berry patches of Interior California. With his first year's earnings he purchased potatoes, secured dead lands along the Sacramento River, near Stockton. People said he was "crazy with the heat."

But the little Oriental had confidence in the waste lands of the Sacramento, and today he is credited with the reclamation of many thousands of acres of California land, and with giving to the state millions in new wealth.

At the time of his death he was reported to own \$15,000,000. He owned 50,000 acres of California dead land. His entire fortune was founded upon the raising of potatoes, which he first tried on the "waste land" of Interior California.

## Wild Swans Enter Sanctuary

Only Known Nesting Place in Canada Is At Jack Miner's

WORLD HAPPENINGS  
BRIEFLY TOLD

Laith Barbach was buried under the old Lebanon cedar tree that stands in a corner of his garden, across the highway from his home.

J. R. Woodworth, labor, Winnipeg North Centre, presented a petition in the house during the payment of pensions to the blind.

The auxiliary schooner, *Elle Marissey*, owned by Captain Robert Bartlett, of St. John's, Nfld., is being outfitting at Brigs for an expedition to the Arctic during the coming summer.

Silver plate and trophies from the German battleships *Scharnhorst* and *Lepidus*, sunk by the British off the Falkland Islands, have been discovered at Sydney, N.S.W.

Just after leaving Hong Kong harbor on a trip to Singapore, the British submarine 122 collided with a form boat. There were no casualties, but the submarine was badly crippled.

The fortified island of Ibeloy off La Rochelle, believed to hold the world's record for the scarcity of the bob among its female population. In a population of 1,100 there is only one bobbed female head.

Camron De Valera, who recently resigned from Sinn Fein when the extremists among his republicans, followed by refusal to accept his proposal to compromise with the Free State, is forming a new organization to work for Irish freedom.

An air service across the Arctic, or at least the sub-Arctic regions, should be in operation within a few years, in the opinion of Commander R. Mackenzie, who is in charge of the Canadian Government expedition which yearly visits the government posts in the far north.

Nearly a score of bills designed to enforce quotas under the Immigration Restriction laws were rejected by the U.S. Senate Immigration committee.

A million dollar art museum is to be erected at Yale University to house the rare and valuable collections now in its possession. The donors are anonymous.

The directors of Barclays Bank, London, in announcing a pension scheme for women employees, state that on marriage women will be required to relinquish their positions on the staff. They will then receive a gratuity equal to 5 per cent. of their annual salary for every completed year of service.

## Convicts Whine Over Trifles

Modern "bad man" Not Old Hand Boiled Type ...

Convicts these days are not the old hard-boiled type of inmates past-men who were really tough and gloried in it and could take or give a blow with any ease.

The modern "bad man" is more the afternoon tea and powder-puff variety who suffers from "nerves" and likes to cry about it.

This is indicated in the latest prison report of the governor of Dartmoor Prison which for generations has housed desperate criminals.

"The present-day convict is far better educated than his confrere of olden days," said the governor, "but he is softer and more apt to whine over trifles. Assaults are almost unknown, but petitions are becoming a cult."

## Favorable Trade Balance

A balance favorable to Canada was maintained in the trade of the Dominion up to the end of February, a statement issued by the bureau of statistics shows. In that month imports to the value of \$78,908,509 were recorded, while exports were valued at \$121,511,197. For the twelve-month period ended February 28 last, exports reached a value of \$1,297,741,683 and imports \$911,107,655.

A pedestrian was to be a person who walks. Now he jumps.

## TIPPITY-WITCH IRENE

IRENE: "YOU SURELY DON'T INTEND TO GO OUT IN A SKIRT AS SHORT AS THAT?"

CERTAINLY NOT!

I DON'T KNOW WHAT THIS GENERATION IS COMING TO! SHORT SKIRTS? BOBBED HAIR? IT'S BEYOND ME!

## INTRODUCING COUSIN DORA

WHY CAN'T YOU BE MORE LIKE YOUR COUSIN DORA? SHE'S A WHOLESALE OLD FASHIONED GIRL!

YOU SAID IT!

SHE'S SO OLD FASHIONED SHE'S STILL WORKING CROSS WORD PUZZLES!

By COLLEEN MOORE

## Children Looking For Work

190,000 In England Have Been Released From School

More than 190,000 British children who had attained the age of 14 were released from school and placed on a labor market which has little place for them.

In the past children were permitted to leave school on attaining the age of 14. This released them throughout the year and it was possible for them to be absorbed in industry and commerce gradually.

Under the new system children who become 14 during a school term may not leave school until the end of that term. This makes so many applicants for positions the same time that employers say many of the children just necessarily remain idle for a considerable time before they can be absorbed into the industries.

Princess Frook of Charn

This one-piece model of Charn's dress has been sold as simple as a smart frock, can—but it just couldn't help flaring gracefully at the lower edge. The upper part of the dress is cut on princess lines, slightly adding the figure. The Valued front opening is a very important style feature, and so is the scarf collar and this dress has both. The long plain sleeves are finished with tab cuffs. No. 1245 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 bust requires 3 yards 6-inch material, with 3/4 yard contrasting for reverse facing. Price 29 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

## How To Order Patterns

Some people who are in the social swing find it difficult to keep their heads above water.

It isn't always the loser in a pugilistic contest that gets the availed head.

Some hatched lies are old enough to have a full beard.

War relieves the density of population, but diplomats remain just as dense.

Some hatched lies are old enough to have a full beard.

War relieves the density of population, but diplomats remain just as dense.

Some hatched lies are old enough to have a full beard.

War relieves the density of population, but diplomats remain just as dense.

## ON THE AIR

What is Doing in the World of Radio

Exports of radio apparatus from the United States to the remainder of the world have risen in six years from an item of less than \$1,000,000 to one that in the year just past was only a few dollars short of \$10,000,000.

South Africa is expected to follow the lead of Great Britain in licensing broadcast receivers, according to advice. A heavy penalty will be imposed on those who fail to comply with the licensing regulations.

Station KPJF, Oklahoma City, has been made defunct in a \$20,000 libel suit. The suit concerns statements made by Rev. Lincoln McConnell while the station was leased by him.

Sir Harry Lauder, world famous Scottish comedian, was able to save the price of a telegram while in London. He was broadcasting from station 210 and, knowing that his wife who was in Glasgow was listening, he included a short message to her.

Radio broadcasters are eternally on the watch for promising material for their programs and hold regular auditions for that purpose. Out of the luck of the ordinary and average at times there emerges a distinctive voice or a splendid musician who compensates for the rest.

An interesting record in long distance radio reception on a moving train has been established by the Canadian National Railway. The transcontinental express of the Canadian National Railway was picking up and holding for thirty minutes a broadcast from Vera Cruz, Mexico.

An automatically controlled radio telephone service is in operation between two private stations, one in Honolulu and the other on the Island of Lanai, 60 miles distant. The system includes a bell signaling device to notify one end of the "line" that the other desires to converse. Power is supplied by storage batteries.

## Healthy Body Able To Resist Cancer

German Doctor Proved Statement By Experiencing On Himself

Cancer is not contagious when brought in contact with a healthy human body. In the opinion of Dr. Hans Kretschmer, of the surgical clinic of Königsberg University, Dr. Kurt Jahn astonished a convention of German surgeons in Berlin by reporting that he had experimented on himself, transferring a patch of cancerous tissue from a patient's regional gland to his own thigh. The cancer cells, he reported, died shortly, being unable to live in a healthy body.

## Canada's Large Shoe Output

Statistics received by the bureau of statistics from 141 boot and shoe factories, out of a total of 149 factories in operation in Canada, show that 1,194,198 pairs of leather and felt boots were manufactured during the month of January last. This total comprised 1,149,198 pairs of boots and shoes with leather or fabric uppers, and 49,493 pairs of felt footwear of all kinds of cloth slippers for house wear. These totals are exclusive of harness and sheepskins and Indian moccasins.

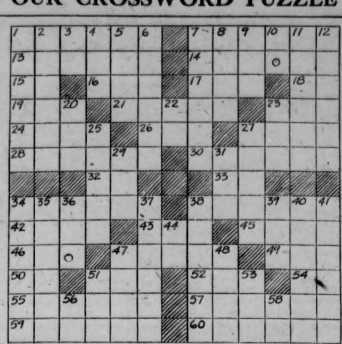

## Sails For North Pole

Lieut. R. H. Byrd, who was one of the fliers who circled the world for the United States navy, has sailed for Polar regions, his expedition being financed by several wealthy American business gents. He will strive to locate the North Pole and will make scientific observations during his flight.

## Study Of Dead Things

Millions of young people have spent years in school and college studying dead things without learning anything of the live subject of taking care of themselves, the most important in the world.—E. W. Howe's Monthly.

## OUR CROSSWORD PUZZLE

- Horizontal
- 1—To test.
  - 2—Retaliation as a form of justice.
  - 3—Wears or grows away.

  - 26—Dwell.
  - 27—Note of the scale.
  - 28—Wary.
  - 29—Associate of the Academy (tabby).
  - 30—Symbol for silver.
  - 31—Seventh note of the diatonic scale.

## SUNDAY SCHOOL LESSON

APRIL 25

## THE STORY OF CAIN AND ABEL

Golden Text: Am I my brother's keeper?—Genesis 4:9.

Lesson: Genesis 4:1-26.

Devotional Reading: 1 John 4:12,13.

## Explanations and Comments

I. The Occupations of Cain and Abel, verses 1, 2.—To Adam and Eve, two sons were born, Cain and Abel. The Hebrew word for "I have gotten" is "to beget." Where our word "became" is a tiler of the ground, a husbandman, and Abel a keeper of sheep.

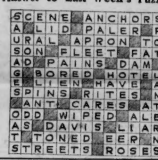

II. The Two Sacrificial Offerings, verses 25.—The two brothers brought each an offering to Jehovah. Cain's offering was the fruit of the ground; Abel's, the first-born of his flock, the greatest-prized pieces of his flock, were offered in sacrifice. Compare Lev. 1:8; 2:2. The origin of sacrifice is not explained, nor is an altar mentioned. Man is assumed to be by nature endowed with religious instincts, and capable of holding converse with God. Worship was man's mode of approach to the Deity; and sacrifice was its outward expression (Dr. Herbert E. Ryle). "From the time of Abel onwards, sacrifices are uniformly, and with increasing clearness, set before us as the appointed way of approaching and holding fellowship with God. 'I'll have the sacrifice of our Savior Jesus Christ!'"

## Women Doctors Successful

Dame Louisa Aldrich Blake, who will have been proved at over 438,000, was only one of several women doctors who have made fortunes in medicine. A woman doctor in Westminster is making an income of probably £2,000 a year. Medicine is much more profitable for women than law, for there must be at least half a dozen women doctors in London making £2,000 a year.

A man frequently loses interest in a subject as soon as his argument is exhausted.

## Answer to Last Week's Puzzle

## Gov.-General's New Limousine

The Finest Car Ever Produced in the Dominion

The fact that the governor-general's new limousine, presented by Canadian war veterans, is the finest car ever produced in Canada is said to be largely due to the fact that war veterans employed in the plant at Oshawa where the car was built, made a special drive on the job. Everything for "Byng's car" got extra service and the men put the extra work into it as their contribution to Byng's gift. The presentation of the car was not the complete story, for the veterans had also provided for its insurance and even its transportation to London when his excellency returns to the motherland.

## Perfect Strangers

Frank A. Munsey told a story about a feast that Jupiter gave to all the virtues. The virtues were very jolly and sociable at the feast, but two of them—two of the most beautiful of them—seemed stiff and constrained in each other's presence. "Accordingly, Jupiter took the one virtue by the hand and led her to the other. 'Behave,' he said—'your sister, Gratitude.' The two virtues were indeed astonished. This was the first time since the creation of the world that they had ever met."

## Just how many people do save?

A man may read of the large deposits placed in banks and come to the conclusion that everyone is saving money—perhaps except himself.

The fact is that a great many people save nothing whatever, and that the proud crop capita showing of savings in Canada is built up by the thrifty.

It is the savers, however, not the non-savers, who control their own welfare and take advantage of their opportunities. It is the savers who succeed.

The Bank of Toronto not only welcomes depositors but extends a friendly personal service which aims to promote in every way the welfare of its clients.

## About Town and Country

Effective May 2, there will be a daily train service from Oyen to Calgary and Saskatoon. The addition of a Sunday train to Saskatoon and a Monday train to Calgary will be appreciated by the travelling public.

William Hogan was admitted to Oyen General Hospital last Saturday and subsequently operated on for appendicitis. We understand he came through the operation well and is progressing favorably.

On Friday, May 7, Rev. George A. Dickson, of Knox Church, Calgary, will deliver a public lecture under the auspices of Oyen Lodge No. 104, A.E. and A.M., in Oyen Theatre. Watch for advertising.

Mrs. J. E. Vance-Bedford, of Vancouver, B. C., arrived in Oyen last Sunday to spend the next month with her daughter Mrs. W. D. McPhail.

Norman Tiland of Pollockville, a former resident of Oyen, was a town visitor, last Friday and Saturday.

Mrs. E. Horn, who was rushed to the hospital a week ago last Sunday, is making very satisfactory progress after an emergent operation. It is expected that she will be discharged from the institution in a few days time.

William England, motored to Calgary last Sunday.

### J. D. WALLIS, O.D.

Eye-sight Specialist

will be at the hotel, Oyen, Friday and Saturday, April 21-22, for the practice of his profession. Eyes examined and glasses fitted. Office with Dr. J. A. Milligan, Eye, Ear, Nose and Throat Specialist, 211 212 Herald Building, Calgary.

Born—To Mr. and Mrs. H. F. Kidd of Oyen, on Tuesday, April 20, a son.

Born—To Mr. and Mrs. Alex. McKenzie of "E. N. Ranch", Excel, on Tuesday, April 20, a son.

On Friday, April 16, about 20 couples from the Young People's Club called informally upon Mr. and Mrs. Peck. A pleasant evening was spent in dancing. The Club is planning to hold its next dance in the Masonic Building on Friday, April 30.

Further information will be given the members as soon as possible.

### Club Offer Pair of Golf Shoes

In order to compile a schedule of handicaps, all members of the Oyen Golf Club are requested to turn in to the Secretary three cards (9 holes each) on or before May 3. A fine pair of golf shoes is offered to the member turning in the lowest score for the 27 holes. Score cards may be obtained from the secretary, Charles Stewart.

### Tennis Courts Kept Busy

Members of the tennis club are turning out in force these evenings, and taking full advantage of the lengthening daylight hours.

### W. V. Miller

Notary Public

B. H. Dial, auctioneer, sold a team of horses at Mr. A. J. Walker's sale, last Saturday for \$310. This is a record price for recent years. Other horses were sold at very favorable prices.

Mrs. A. T. Audibert met with a painful accident last Thursday when a large piece of wood pierced her hand. Blood poisoning followed, necessitating an operation. Her condition is improved.

Miss Edna Wright of Cappon, was admitted to the Oyen General Hospital, on Monday afternoon and operated upon Tuesday morning for appendicitis. We are informed that her condition is satisfactory.

Master Harvey Rugven who has been confined to hospital with pneumonia, will be ready to leave in a few days.

Ed. O'Reilly recently sustained a painful fracture of the arm, while cranking his Ford. He was taken to Oyen General Hospital where the fracture was reduced and a cast applied.

Michael Devorez, who was admitted to hospital some time ago in a serious condition, is now reported to be doing well.

Dr. J. P. Kerr, who has been ill since last Wednesday, is still confined to bed. His condition is improving.

### Municipal District of Cereal No. 242

#### TENDERS WANTED

The Council of the Municipal District of Cereal No. 242 will accept sealed tenders for grading at least thirty miles of road in the different divisions of the Municipal District. The standard to be followed is as follows: an 8 inch crown 16 feet wide, the ditch to be 12 feet from the center of the road 30 inch deep and backspaded, the Municipal District to furnish the grader and the one tendering to furnish the power and whatever else necessary. The work to be completed before the first day of August 1928, address tenders to:

J. P. Roraback, Sec-Treasurer, Oyen, Alberta Box 10.

**FOR SERVICE**—The Percheron Stallion "Lark" (whose enrollment certificate is given below) will stand for service in Oyen over week-ends, at Matt Klusen's, Fairview, on Fridays, and at J. D. Wenger's, Box 19, Twp. 36, Rg. 8, for the balance of the week, commencing about May 1. For further particulars, apply to undersigned.

"Enrollment Certificate of Pure Breed Stallion, No. 128. The pedigree certificate of the Percheron Stallion "Lark", No. (7780), describes as follows: Color, Reddish Black; Marked, star on forehead April 21, 1911. Owned by J. D. Wenger of Oyen, Alberta, and it is hereby certified that the said stallion is recorded in the Canadian Live Stock Records or is registered in a stockbook recognized by the Canadian National Live Stock Records Board or has been approved by the Minister as a pure bred Stallion, as the case may be and is allowed to stand for public service in the Province of Alberta, and is granted this certificate. Issued at Edmonton this 11th day of March, 1928. Signed George Hensley, Minister of Agriculture."

J. D. Wenger, Oyen, Alberta.

The total yield of wheat in Canada for 1925, as finally estimated by the Dominion Bureau of Statistics, is 416,846,750 bushels, the second largest on record, having been exceeded only by the 1923 crop. The value of this crop is estimated at \$465,115,000, or over \$20 per capita of Canadian population. The average wheat yield was 19.3 bushels per acre.

## X-Ray Service

The new Victor X-Ray is now installed and operating in Oyen General Hospital. All classes of X-Ray photography taken, including dental X-Rays.

Latest Carbon Light, now installed, is the modern cure for chronic rheumatism, pleurisy and joint pains.

Special Cases taken at any time, day or night.

If special appointment desired

PHONE No. 7 OYEN

## FIRE THREATENS OUR NATIONAL HERITAGE

Carelessness Destroys  
3,000,000 acres annually  
of Canadian Forest

Loss of standing timber by fire continues to be appalling. On the average, over 3,500 million board feet are destroyed annually. The forests of Canada are being depleted at a rate they cannot possibly withstand; more than half of this depletion is due to fire, insects and decay. The future of the forest industry is just as dependent on the seedling trees and young growth as the pulp and paper and lumber mills, and industry generally, are dependent on mature timber—both must be saved from the ravages of fire.

In addition to the shelter afforded by the forest to the farmer and his stock, settlers in forested regions are vitally dependent on the woods for winter employment. Care with fire in land clearing operations in all essential—burned timber pays no wages.

Canada has the finest inland fishing in the world, but these splendid food and game fish require clean, cold water in the streams to ensure prolific reproduction. Forest fires are inimical to fish life.

Game animals attract foreign tourists and induce Canadians to seek pleasure, health and adventure in the great outdoors. These animals are distinctly a forest resource—utterly dependent on it for protection and food. Forest fires are most destructive of such wild life.

Ninety per cent of the forest fires are caused by carelessness. Are you doing your part to prevent this wanton waste and destruction?
